And Jessie, our daughter, who resisted a childhood full of great sadness and great inspiration. And yes, one day we'll go to Disneyland. The dedication of Hal and Sophia Friedman, in my 13year-old help quest, I traveled to places away from home and met many people, young and old, with such extreme medical conditions that I could not have imagined they existed. I will never forget these special friends and their heroic battles with the ghosts that inhabited their minds. I understand and understand. I hope that this account of my life, which in many ways are similar to those of them, will give them and others as they are a measure of comfort and hope. And I am grateful to my father and James Patterson for helping to tell my story to the many people who could benefit from it. To those like me, who are forced to travel on a path that few others can conceive, I want peace and a way home. ℓ - Cory Friedman â preface â ℓ ∞ One morning in March 1989, just before my fifth birthday, I woke up like a normal and healthy child. By that afternoon, I had an irresistible urge to shake my head, continually, and the course of my life changed in the ways that few people had seen or could begin to understand. "Before a long time, my body became an explosive, volatile and unpredictable force with a mind and personality of its own. He shook and twisted, doubled in half, and turned without notice until he was almost always on the move. "I bit my teeth until I broke them and howled them with pain due to the nerves exposed. "I twisted my back so hard that I scratched muscle tissue and had to be drugged to prevent it from doing so. My Mind Fut Hights To ToShell couldn't even talk about them with my parents. "It didn't take long before seeing me as the strangest person in my city. I felt like a child at the end of a puppeteer's rope. "What made it even worse was to know that I was also the puppeteer." This is the story of Cory Friedman, and what follows is his remarkable journey, a triumphal story against all odds. I met Hal Friedman in 1975 in New York, at the advertising agency J. Walter Thompson, where we were both writers. We never imagined then that more than thirty years later, we would collaborate to write a book about Hal's son's damping experiences. Over the years, I would hear about Cory and his devastating struggle with Tourette syndrome, obsessive-compulsive disorder. But until Hal asked me to read an early draft he had written of Cory's story, I had no idea how severe a torment of this lovely family had been living. I knew his complex condition was almost impossible to deal with. In fact, thirteen doctors and approximately sixty potent medicines after Cory shakes his traumatic head, his debilitating symptoms were not yet controlled. When the downward spiral of his symptoms were not yet controlled. When the downward spiral of his symptoms led to severe depression and despair, and when all Cory's doctors and his counsels and medicines had proved to be false hopes, Cory's family organized an intervention that was as daring as anything that had preceded it, perhaps more. He attracted me to Cory's story because of what he says about the power of love, courage and determination, and I was proud to join Hal in writing. I knew that Cory's story had to be told because it would give hope and comfort to so many others who fought in all spheres of life. Cory was in a living hell, but when we got out, that it is possible to survive—and even thrive—against the incredible odds. For me, that makes him a hero.siAm se Auga votse eug lapicnirp n³Azar al orep ,odacilpmoc se otnup etse a odagell eh ©Aug rop y om³AC .solle ed onu se on ocol ratse orep ,ratart odidop ah eidan eug selausuni samelborp asuac orberec im euq ©ÃS.Ãm arap osulcni,lanoicpecxe otneve nu se etsE.elpoep yzarc staert taht ecalp a ot dtropsnart gnieb, rac ylimaf ruo fo taeskcab eht ta DOOHDLIHC TSOL A onU etraP namdeirF laHâ.Ãs ,oy omoc sanosrep sarto a aduya iS :radud nis ,esarf alos anu ne amet le ³Aivloser y ,abatisecen euq aAug al rop yroC a iuf ,etnemlanif .yroC ed adiv al ed somitnA s¡Am sellated sol on o socilbºAp recah ed n³Aisiced al rop odatnemrota etnemaunitnoc iuf ,orbil etse ribircse ³Atsoc em euq so±a ortauc sol etnaruD .adiv ed airotsih us ed osicerp otarter nu atneserp avitarran atse eug amrifnoc yroC .satcerid serailimaf senoicavresbo sal ed y ,odoÃrep le odot etnarud erdam us rop sodinetnam noreuf eug sodallated dem socit©Ã soiraid sol ed ,yroC ed satneuc saiporp sal ed sodiurtsnocer odis nah airotsih atse ne natneserp es eug selausuni etnemadamertxe sosecus soL .sacid©Ãm senoicutitsni e socid©Âm, sogima ed n³Ãicacifitnedi ed sellated sorto y serbmon sonugla odacifidom nah eS. saicneirepxe satse ed s©Ãvart a riviv yroC ed adiv al acraba euq so±Ãa ecert ed nif nis odo-Ārep nu âsomar ©Ãiviv ol euq sortoson ed solleuqa a â aÃcerap euq ol erbos obac a ³Ãvell es IUQA SODADROCER SOTNEVE soL erdaP led ogol³ÃrP nU nosrettaP semaJ â .onamuh utirÃpse led arup dadilibicnevni al rop y ,ailimaf us y namdeirF yroC ed lanif airotciv al y oicifircas le ,rolav le ne neripsni es n©Ãibmat sedetsu euq se aznarepse iM .yroC ed erbmon ne ocid©Ãm ojesnoc le artnoc elreart ed sodarnoh somatse oy y laH Finally I have found the only thing that I cannot fix by myself. The dicos of the place that I am going to promise that they can help me. I have heard that before. After about an hour, we reached a large brick building with a sign that Lee Dressler Psychiatric Hospital. In a second the reality of what is happening becomes very real and very scary. Why does it say that? I call from the back seat, my heart suddenly hitting. Do not worry about the sign, says my mother to calm my growing pénico. â € œThat all kinds of problems here, Coryâ €. Pap's looks as worried as me but he says gently, let's not deal with this now, right? Sure, no problem. What can my father be thinking? Within the main entrance, enter a very busy waiting room, somewhat noisy. Being in sight always makes me feel unbridled, so as soon as you start walking, my feet need to make a triple hop, three pursuit only to pieces, which throws me with balance. I have to do this to satisfy a tension that I'm flying to the ground. I do the triple hop a couple of times more before reaching the safety of one of the empty chairs of the waiting room. Welcome to my fun house, friends. Chapter 2 Many of the people in the waiting area still look at me while my right hand shoots in the air with an extended middle finger. Wow, we go, I think. The main corridor is small, perhaps fifty feet long, before it is turned off in a straight angle. There are no nurses, doctors or equipment, not like any hospital you've been in. They look at me and whisper to each other. Then they disappear. A man in a computer in a small office turns out to be the neighborhood supervisor. She's dressed in very informal clothes and doesn't look like a doctor. He's still working for a while, and when he finally turns to us, I notice that his eyes are blurred. He seems to be high or a little late. If I didn't know who he was, I quess he was a patient. After passing over my papers, he takes us all three to the room. There are small offices on each side of the main corridor. One of them is to dispense medicine and has metal bars on the opening. We took a turn to the sharp right. All the patients' rooms are outside this corridor. There is also a common area with a TV that reproduces, but no one is watching it. "How are many children here?" Question. ceTerino now, eleven. Never more than fifteen. That's a hospital rule. As we go through the rooms, I tell about eight kids and I have no idea where the rest is hiding. They're all teenagers, not as old as me. The three children I saw before appear again at the end of this corridor. As I approach, they separated and pass by me, mortally serious. This isn't a lot I want to be around when the lights go on. And that includes the supervisor. I'm getting more uncomfortable for the second. My skin blows a cold sweat. Jump. Jump. Jump. I can't do this. I'm getting more uncomfortable for the second.
