5.2	Data Set Math	21

Use of Images

SPACING

Provide at least a 10 px border around all sides that no other objects should fall within.

DON'T:

Stretch photos.

Use photos as backgrounds.

Place type on photos.

NOTE: Charts and text may be used with photos in certain situations, but they should only be handled by an experienced **design professional**.

Attunity replicate connect user guide and reference.

Note: Always ensure your operating system is current for your needs. This product includes both of the software packages described below: Qlik (formerly Attunity) is a multi-competency AWS ISV Partner. We accelerate cloud analytics with the only end to end data integration and analytics solution for AWS, taking you from raw data to informed action. With Qlik, you can automate continuous delivery of real-time analytics-ready data into AWS Data Warehouses or Data Lakes, and make it easily accessible through a governed catalog. Our modern data analytics platform empowers users at any skill level to freely explore all your data and uncover hidden insights.The Qlik Data Integration Platform (formerly Attunity) efficiently delivers large volumes of real-time, analytics-ready data into the AWS platform. There is no need for manual ETL scripting with fully automated raw to analytics-ready data pipelines for RDS, S3, Kinesis, EMR, Redshift as well as Snowflake and Databricks running on AWS.Continuous data ingestion and migration.Qlik's fully automated change data capture (CDC) enables continuous, real-time data ingestion with an agentless and log-based approach, your data is always current without impacting source systems.Real-time change data capture with Qlik ReplicateQlik Replicate moves data in real-time from source to target, all managed through a simple graphical interface that completely automates end-to-end replication. With streamlined and agentless configuration, data engineers can easily set up, control, and monitor data pipelines based on the leading change data capture (CDC) technology.Validated by AWS for Database Migration Competency and RDS Services and Amazon Redshift Ready. Amazon EC2 running Microsoft Windows Server is a fast and dependable environment for deploying applications using the Microsoft Web Platform. Amazon EC2 enables you to run compatible Windows-based solutions on AWS' high-performance, reliable, cost-effective, cloud computing platform. Attunity Replicate Setup and User Guide Version 6.4 October 30, 2019Attunity Replicate Setup and User Guide, 6.4 Copyright © 2019 Qlik Analytics (ISR) Ltd. All rights reserved. Primary Author: Charlton Book The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited. The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose. If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable: U.S. GOVERNMENT RIGHTS Programs, software, endpoints, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Attunity license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software—Restricted Rights (June 1987). Qlik Analytics (ISR) Ltd., 70 Blanchard Road, Burlington, MA 01803 The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail- safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, andwe disclaim liability for any damages caused by such use of the Programs.
